THE PROBLEM

Global Procurement Is Broken

01

Scattered Sources

Equipment listed across dozens of marketplaces, in different languages, with no unified search.

02

No Price Transparency

Fair market value is impossible to determine without deep expertise and data.

03

Complex Logistics

Oversized cargo, sea freight, heavy-lift permits, customs — each step is a bottleneck.

04

Regulatory Barriers

Import permits, VIN verification, compliance requirements differ in every country.

MARKET OPPORTUNITY

A \$432B+ Addressable Market

| CATEGORY                        | MARKET SIZE | GROWTH      | POTENTIAL CLIENTS |
|---------------------------------|-------------|-------------|-------------------|
| Industrial Materials & Supplies | \$260B+     | ~5% CAGR    | ~1.5M Companies   |
| Used Equipment & Rental         | \$140B+     | ~7% CAGR    | ~100K Firms       |
| Spare Parts & Components        | \$32B+      | ~6% CAGR    | ~1M Owners        |
| Total Direct Market             | \$432B+     | 62% by 2030 | 2M+ Companies     |

HOW IT WORKS

From 15+ Steps to Just 3

Today: 15+ Steps · 4-8 Months

At least 15 fragmented steps — and in practice many more. Months of coordination with dozens of third parties, across languages, regulations, and time zones.

1. Global Market Search

2. Equipment History & VIN

3. Technical Inspection

4. Data & Offer Analysis

5. Official Import Permit

6. Price Renegotiation

7. MOU & Proforma

8. Funding & FX Payment
9. Export Docs & Title

10. Cargo Quotes & Insurance

11. Heavy-Lift Origin

12. Port Transit & Escort

13. Sea Loading & VGM

14. Vessel Tracking & ETA

15. Customs & Delivery

PLATFORM CAPABILITIES

Everything In One System

Global Search

AI-powered scanning across Mascus, Craneslist, Machineryline & more

Smart Valuation

Real-time pricing, depreciation, hours adjustment, multi-currency

CRM & Messaging

3,000+ contacts, WhatsApp templates, auto follow-ups

Logistics

4,000+ ports, 60 data columns each, route optimization

Import Permits

TZAMA forms, VIN verification, regulatory automation

Technical DB

30,000+ PDFs — specs, load charts, engineering data

Interactive Map

Geocoded sellers, port visualizations, shipping routes

Quote Generator

Professional PDFs, customer management, multi-currency

AI Analysis

Market noise filtering, complex variable indexing

INVESTMENT

\$3M USD
